

Crescent Steel and Allied Products Limited

Quality Policy

Crescent Steel and Allied Products Limited (CSAPL) is a progressive manufacturing organization producing large diameter steel pipes and applying anticorrosion and flow coatings.

CSAPL is committed to consistently provide products and services conforming to customer and applicable statutory and regulatory requirements, based on application of modern technology, ensuring customer satisfaction, taking into account risks and opportunities, maintaining sustainability, cost and quality leadership, and doing right the first time; formulating objectives for continual improvement and monitoring them to ensure effectiveness of Quality Management System through an independent quality function which also encompasses compliance with company HSE objectives.
